Long Service
Authority**

Portable long service for security workers

Under the Portable Long Service Benefits Scheme, eligible workers in the security industry build up long service benefits based on time in the industry, rather than with a single employer.

Register

Your employer signs you up for the scheme and you receive a welcome pack in the mail.

Earn

Each quarter your employer records your service and wages with us, and pays a levy that is managed in a central fund.

Access

After 7 years of service, you can apply for your long service benefit that is paid out of the fund.
