

**Subject:** Members of Parliament salaries and allowances - annual adjustment

Good evening

Please see below my submission for the Victorian Independent Remuneration Tribunal:

***Consideration should be given to expand members expenses to include costs that may be incurred due to a medical condition or illness with a certificate from a Medical General Practitioner or Specialist.***

***For example, domestic transport expenses (such as taxis) should be included under circumstances when a member is unable to drive for medical reasons.***

***It should be incumbent upon parliament to ensure the workplace is inclusive, accessible, and accommodating of people living with illness and disability.***

Kind regards

**Emma Vulin MP**

State Member for Pakenham
